

## Budget concerns tops Lee's priority list

Assuming the reins of the College as interim president, Jerry C. Lee has set a series of objectives for himself over the coming months—chief among which is dealing with a federal budget proposal he calls “unprecedented.”

“We’ve never been faced with such reductions,” he said of the proposed fiscal year 1985 spending plan which would cut about \$10 million in federal funds from the MSSD and KDES budgets. In addition, the budget proposal directs the College to no longer use federal money for continuing education, the extension centers or the law center.

Calling on the help of supporters, the College administration will work to restore money to the budget. But at the same time, Lee sees a federal budget picture growing dimmer and plans to pursue increasing College revenue through non-federal sources. To this end, the Gallaudet Foundation was approved last month by the Board of Trustees. The Foundation, a private corporation to be controlled by the Board of Trustees, will function as the fund-raising arm of the College.

Lee has also set as an objective improving data processing as it relates to the support of academic programs. “This is the computer age, and we want faculty and students to have more access to computers providing a variety of services,” he said.

The College is investing more money in this area—especially for the purchase of microcomputers—and has approached private industry about the possibility of providing computers for campus use.

Rounding out Lee's list of four major objectives is to develop and present an effective Master Plan to the Board of Trustees. The Board will receive the

Master Plan in May.

In other matters, Lee plans to appoint a committee to review the option of opening a day care center on campus for children of staff and faculty members. The idea has been discussed for years and Lee hopes to get the committee off the ground this spring. He has already appointed LaVarne Hines, director of Equal Employment Opportunity and Community Relations, to chair the committee.

Lee also hopes to take a look at the College's benefit structure, expressing concern that rates for health care tied to civil service are “so high they’ve had an adverse impact on employees.”

In discussing his leadership style, Lee said he is most comfortable with a team approach, in which “by working together, I can call on a lot of

Sen. Carl Levin (D-MI) visited campus the morning of Feb. 2 to meet with students at both the College and MSSD who hail from Michigan. Levin is pictured at breakfast at ‘Ole Jim’ with students and Interim President Jerry Lee.

## GCAA takes part in presenting plaque of appreciation

The Gallaudet College Alumni Association was one of six groups to present the United States Department of Education with a plaque expressing appreciation for the Department's work in fostering the development and availability of closed caption television.

The GCAA, The National Association of the Deaf, the National Fraternal Society of the Deaf, Self Help for Hard of Hearing People, Telecommunications for the Deaf and the Alexander Graham Bell Association for the Deaf presented U.S. Secretary of Education T.H. Bell with the plaque last week which recognized the Department for its “contribution, involvement and determination in fostering the development and availability of closed captioned television.”

The plaque was presented to Bell

Tuesday, Jan. 31 at the U.S. Department of Education on Maryland Avenue in Southwest Washington. About 25 persons attended the appreciation ceremony, including Jack Gannon, director of the College's Alumni and Public Relations Department and executive secretary of the GCAA. Charles Giansanti, an associate professor in the Chemistry Department, represented the National Fraternal Society of the Deaf.

T. Alan Hurwitz, president of the National Association of the Deaf, presented the plaque to Bell, saying: “Closed captioning has become so much a part of our lives in the past several years that it is hard to believe this wonder hasn't always been with us. It hasn't. A generation of Americans came of age in the Television Era

before this nation's deaf citizens could share in its benefits.”

The group praised the Department of Education for allowing deaf persons to share the benefits of television. Noting that the first closed captioned television demonstration was held in 1971, Hurwitz credited the Department of Education with ensuring that the concept developed into a tangible product and service. “Had it not been for the U.S. Department of Education, closed captioned television might not be a reality today,” he said, stressing that the Department funded the development of the technology and the service, including the development of the decoder needed to “open” the hidden subtitles and the establishment of the National Captioning Institute to create

## National research conference planned for June of 1986

A national research conference focusing on the general theme of social change and the deaf community/deaf culture is being planned for June, 1986, at Gallaudet College. The conference will be a follow-up of the Social Aspects of Deafness conference which was held at Gallaudet two years ago.

The conference will bring together authors and registrants for in-depth discussions of major issues related to social change and the deaf community/deaf culture. To facilitate such discussion, participants will be expected to have read the papers prior to the conference. Each participant will

*continued on page 3*

Jane Bassett Spilman, chairman of the Board of Trustees, will serve as a representative from Gallaudet on the National Very Special Arts Festival Committee. Gallaudet will host between 600 and 700 of the participants during the festival May 23-26.

## First hospital unit for the deaf opens

“A great day for deaf America,” is how Jack Gannon described it. Gannon, director of the College's Alumni and Public Relations Department, addressed his remarks to guests at dedication ceremonies for the nation's first medical/surgical unit for deaf and hearing impaired persons.

The 33-bed unit, located at Glendale Adventist Medical Center in Glendale, CA, is staffed by nurses, a medical director and personnel from support departments specially trained in American Sign Language. The unit's nurse-call system has been designed with flashing lights and each patient in the unit is provided with a personal TDD and closed captioned television.

The unit was dedicated Jan. 26, and Gannon attended as a representative of Gallaudet College.

As one of the day's guest speakers—along with actress Louise Fletcher—Gannon called the opening of the Unit for the Deaf and Hearing Impaired, which is administered by a deaf director, “a very important milestone in medical services to deaf people.”

“Access to communication—to be able to understand and to be understood is a basic human right too often and too long denied to many deaf persons for no valid reason. In the past, this communication barrier has often stood between deaf people and quality health care.”

“You are breaking down that barrier,” Gannon continued. “I applaud your sensitivity to the communication needs of deaf people.”

## Library Bits & Pieces

### That time of year

by C. Burnelle McIntyre Ray

During the next few months, all of us will have something in common. We will be enjoying (maybe) the tedious task of filling out our income tax return forms. Although the IRS has asked that "librarians not provide assistance to taxpayers in preparing tax returns or answering tax questions," we can assist by making specific materials available for your use.

One group of tax return materials is published by the IRS itself and is distributed to libraries across the United States. The College library has put these materials on reserve at the Central Desk. Another set is located at the Northwest Campus library. The materials are as follows:

- **1983 Reproducible Federal Forms for Use in Libraries:** This is a loose-leaf binder with copies of selected tax forms. Instructions are also included. For your convenience, these forms and instructions have been especially made for photocopying. Remember, do not remove any of the tax forms or instruction pages except for photocopying purposes.
- **Taxpayer's Guide to IRS Information, Assistance and Publications:** This publication describes the services

available to you. In addition, it contains descriptions of free publications that are most often requested by taxpayers. One interesting item is a "checklist before mailing your return."

- **1983 Instructions for Preparing 1040EZ and 1040A:** Form 1040EZ is a very short form for most single taxpayers without dependents. Form 1040A is an expanded short form that includes two new items for 1983:

- 1) deductions for payments to an Individual Retirement Account and
- 2) credit for child and dependent care expenses.

- **1983 Instructions for Preparing Form 1040.**

- **Your Federal Income Tax:** This is a step-by-step guide to help you prepare your own tax return. Throughout the publication, you will find examples illustrating how the tax law applies in typical situations.

- **Tax information publications:** This is a four-volume set of the IRS' most frequently requested publications with explanations, instructions and sample illustrations. Some topics included are depreciation, record keeping, pension and annuity income, IRAs, educational expenses and business use of your home.

- **More information about tax returns** will be included in the next Serendipity column. That column will focus on special sources for educators.

## Former director of Student Union dies

The College was recently notified of the death of Trissie Cloud, who was employed from 1962 to 1970 as director of Gallaudet's Student Union Building. Mrs. Cloud died July 31,

1983. She was married to Daniel T. Cloud, who, at the time of his death, was the superintendent of the New York School for the Deaf.

## Sponsored R&D

### Grant/contract deadlines

Provided below are application deadlines of selected federal programs that offer potential grant or contract opportunities for Kendall Green faculty, staff, and graduate students. More details on programs of interest can be obtained from the Office of Sponsored Research, x5030 (voice or TDD).

Deadline	Program
02/28/84	ED: Women's Educational Equity Act Program
03/01/84	NEH: Challenge Grants Program
03/01/84	NEH: Summer Seminars for College Teachers
03/01/84	NIMH: Psychotherapy of the Elderly
03/02/84	ED: Communication in Deaf Blind Children
03/05/84	ED: Handicapped Children's Model Demonstration Projects
03/14/84	ED: Special Needs Program

### Fulbright Scholar Awards

The Council for the International Exchange of Scholars is accepting applications from qualified candidates for 1984-85 Fulbright Scholar Awards. These awards will be made for lecturing and research assignments in foreign countries. While there is no deadline for applications, candidates are encouraged to apply as soon as possible.

All candidates must be U.S. citizens. For lecturing awards, candidates should have postdoctoral college or university lecturing experience in the field of application. Research award candidates should have a doctorate at the time of applications.

Grant awards include a maintenance allowance, small incidental allowance, round-trip travel for the awardee and travel for one dependent, if the awards are for more than one academic year.

Candidates may apply for fellows in these fields of study: agriculture, art and art history, American studies, archeology and anthropology, architecture and urban planning, biological sciences, business and management, chemistry, communications and journalism, computer science, earth and atmospheric sciences, ecology and the environment, education, engineering and technology, English as a foreign language, geography, non-U.S. language and literature, law, library and information science, linguistics, mathematics and statistics, medical sciences and services, music and theater, philosophy and religion, physics, political science and public administration, psychology, sociology, and social work.

For further information, contact the Office of Sponsored Research or Council for the International Exchange of Scholars, 11 Dupont Circle, Suite 300, Washington, DC 20036, 833-4950.

Work crews continued to repair the roof of College Hall last week. College officials could not estimate when the work would be completed, saying that weather conditions are a factor in how quickly the job is done.

## Charter Day activities set for April 7

Activities for Charter Day, at which time the College celebrates President Abraham Lincoln's 1864 signing of a bill authorizing the College "to grant and confirm such degrees in the liberal arts and sciences as are usually conferred in Colleges," will be held Saturday, April 7. Charter Day activities are sponsored by the College and the Gallaudet College Alumni Association.

Plans are being made to sponsor the annual GCAA Exhibition of Arts, Crafts and Photography and Charter Day banquet. The exhibition, scheduled for April 3-7 in the Ely Center Art Gallery, is being coordinated by Sharon Kocher Staehle, a 1983 graduate of Gallaudet. The banquet will be held Saturday evening, April 7 in 'Ole Jim' and will feature a program to include a presen-

tation of the Laurent Clerc Cultural Fund Awards and the GCAA/Alexandria-Potomac Lions Club Young Alumnus Award.

Other College-sponsored activities will also be held on April 7. Richard Meisegeier, a Sociology professor, will present a seminar on "Death and Dying." There will also be a library/bookstore fair and an auction on Museum and other items. The auction will be held in Chapel Hall where visitors can view the new Gallaudet Museum.

Questions and suggestions concerning these events should be directed to Mary Anne Pugin, x5277 (voice) and x5105 (TDD), or Phoebe Simmons, x5100 (voice) and x5104 (TDD).

## ... Lee discusses interim presidency

*continued from page 1*

resources to continue the legacy of Gallaudet."

Though he began his duties as interim president last month, Lee has continued to serve as vice president of Administration and Business. He said he will continue to wear both hats until the College's new president is on board.

Until that time, he and his wife, Joan, and 14-year-old son, Jeffrey, will live on campus, bringing with them Beans Bronson, the family's English

bulldog. Lee expects to move into House 200 this week. His wife has resigned as a teacher in the Fairfax County school system so that she can devote more time to College activities.

"The bottom line," Lee said of his hopes for his term as interim president, "is that I want to be responsive to the campus and continue with the College's national mandate of improving the lives of deaf people."

## ... Plaque given

*continued from page 1*

the captions.

Since the first closed captioned television programs were aired in March of 1980, hearing impaired people in the United States have had access to more than 6,000 new hours of closed captioned shows.

The Department of Education continues to promote hearing impaired access to television. The Department contracts with the National Captioning Institute to have ABC's "World News Tonight" closed captioned as it is being broadcast and for prime-time movies on ABC and NBC.

Hurwitz concluded his speech by thanking the Department for its part in enriching the lives of all hearing impaired people in America.

"You and your Department have had a positive impact beyond any measure on our lives today and for generations to come," he stated.

Gallaudet College is an equal opportunity employer-education institution. Programs and services offered by Gallaudet College received substantial financial support from the Department of Education.

## MSSD boasts student athletic trainer

by Patricia Cinelli

A senior majoring in sports medicine at Central Michigan University (CMU) is spending his last semester of college at MSSD sharing his expertise with coaches, athletes and medical personnel on the prevention, rehabilitation and treatment of athletic injuries.

Terry Leslie, 21, is working at MSSD as an athletic trainer in order to fulfill his CMU internship requirement needed for graduation. He is the second intern to work at MSSD as part of a program that started this year under the direction of John Parker, MSSD's athletic director. MSSD provides room and board in exchange for Leslie's services.

"Injuries have declined because of preventive measures being taken by Terry," Parker said. "Athletes are being taped by a professional instead of a coach or by me." Leslie not only tapes players before games but also attends home games and practices and is responsible for developing a program of exercise for athletes who do injure themselves, a program that helps them to regain a range of motion and strength. "Ideally an injured person would be able to go back to competition sooner than he or she would if the athlete had not been working with the trainer," explained Parker.

Leslie works very closely with Gallaudet's Student Health Service (SHS), a relationship for which Leslie saw a need and initiated. SHS Nursing Supervisor Holly Goodling Bell said that working with Leslie has been very helpful to the SHS. "Terry has a lot of sports medicine knowledge that compliments our expertise," she said. Leslie conducted a seminar for SHS staff recently which dealt with taping, assessing and treating ankles. "We all learned a lot from Terry," explained Bell. "Feedback from the staff was very

positive."

As an athletic trainer, Leslie does not treat serious injuries. "I only handle things I can deal with. I'm not a physician and I know my limitations," he said. But when an athlete is treated in the SHS, Leslie documents the student's progress and follows up on the athlete's treatment. "Once a kid leaves the SHS we have no way of knowing if he is doing what he is supposed to be doing (exercise, treatment)," said Bell. Leslie can work with the injured athlete off the playing field and out of the SHS in a way that neither a coach nor a member of the medical staff can. He said he normally works a 10½-hour day, from 10 am until practice ends at about 8:30 pm. "Since we've had an athletic trainer here, our injuries have been down," said Parker.

Leslie said he was hesitant about accepting the internship at MSSD because of the communication problem he anticipated working with deaf students and coaches. He also said he was reluctant to work with coaches who never worked with an athletic trainer before. But while he finds communication a real challenge, he said both athletes and coaches have been very patient with him. He also said that since he's been at MSSD he has noticed that athletes are realizing what a trainer does and are coming to him instead of going directly to the SHS.

Leslie has a small budget and a training room in the MSSD gymnasium which the CMU intern set up last semester. According to Parker, MSSD is one of the few high schools in the Washington area to have an athletic trainer on staff. He said he is documenting MSSD's experience with CMU's internship program and plans to share that information with other high schools for the deaf and league high schools in the area.

Terry Leslie tapes an MSSD athlete's ankle during his internship as an athletic trainer. Leslie is a senior majoring in sports medicine at Central Michigan University and will be working at MSSD through the semester.

## DRCC discusses orientation curriculum

The Deafness Related Concerns Council met on Thursday, Feb. 2 and devoted most of the session to reviewing a draft on Orientation Curriculum. DRCC member Barbara Kannapell and Paul Adams, both of whom work in the Instructional Development and Evaluation Center (IDEC), are designing and developing a comprehensive orientation curriculum for new employees.

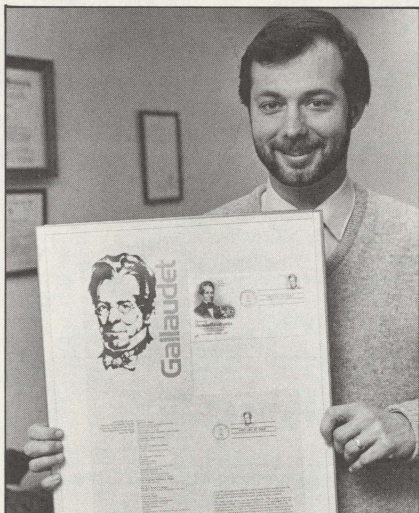

Development of this orientation curriculum came about as a result of a DRCC task force report on the subject a few years ago. The task force's findings indicated that a unified, consistent and informational orientation program for new employees about deafness and Gallaudet was generally sporadic and loosely administered. The 30-page task force report was submitted to Central Administration for review in 1982. At one of its subsequent meetings, CA accepted the report's recommendations to develop a comprehensive orientation program.

Currently, a committee working with

Kannapell and Adams has developed an outline for an orientation curriculum that would cover everything about deafness (terminology, causes, and degree of), types of sign systems and communication modes, attitudes of deaf and hearing people toward each other, deaf culture and other related topics.

The curriculum committee is aware that not all employees need to have a comprehensive orientation, and as such, the curriculum will be designed in modules. For example, a maintenance employee may not need as much of an in-depth orientation as would a Student Affairs employee. Kannapell and Adams hope to have the orientation curriculum completely developed and ready for use by the end of this summer.

Another item discussed at the DRCC meeting concerned a plan for spring elections of new DRCC members to replace outgoing members. More on this subject will appear in a later issue of *On the Green*.

Ed Glenn of Safety and Security holds a montage his wife, Priscilla, received as a gift. The montage of the Thomas Hopkins Gallaudet stamp includes programs from the dedication ceremony and a stamped envelope on the first day of the stamp's issue last June.

## Kendall students to enter area-wide math skills contest

Students from the middle school and intermediate departments of Kendall Demonstration Elementary School will be competing this year for the first time with hearing children in an area-wide math achievement contest.

Anne Ciambrone's middle school class will take the test of arithmetic skills Feb. 14. Intermediate students of Virgil Mason will repeat the timed examination on March 7.

Sponsored by the Maryland Math League, the annual competition is expected to involve almost 200 public and private schools from throughout the state and the District of Columbia.

KDES' score will comprise the scores of the school's top five achievers. Winning schools in each of three age categories will be announced in the early spring.

Just as important as the competition, says KDES math resource teacher Kerry Corcoran, is the opportunity it will give students to take the 30-minute test itself.

"We're trying to get our kids to take speed tests because they'll have to when they're in high school," she said. "We want them to develop test-taking skills in real situations."

## 'Jump Rope for Heart' held next month

The Gallaudet College Intramurals Office and Recreation Club will host for the first time "Jump Rope for Heart" next month. A team event which can involve both faculty and students, "Jump Rope for Heart" will be held March 2 from 3:30 to 6:30 p.m. in the Field House.

The event promotes physical education and cardiovascular health while raising funds for the American Heart Association.

Practice sessions will be held in Hughes Gymnasium Feb. 15 from noon to 1 p.m., Feb. 16 from 5 to 6 p.m., Feb. 22 from 5 to 6 p.m. and Feb. 23 from noon to 1 p.m. At those times, different methods of jumping

rope will be demonstrated and assistance offered. Pledge envelopes can also be picked up at this time.

Each participant is responsible for finding his own pledges. A pledge is collected for each minute the six-member team jumps as a group. Prizes will be awarded to participants who raise certain amounts of money.

The process begins with one jumper who jumps rope until tiring, after which the next team member in line will take his place. Teams attempt to continue jumping for a maximum of three hours.

For more information, call Natalie Hart or Gina Oliva Tuesdays, Thursdays or Fridays from 2 to 5 p.m. at x5365 (voice and TDD).

## ... Conference

continued from page 1

receive copies of the papers approximately three months before the conference begins through advanced registration.

Anyone interested in submitting a paper for the conference should send a three- to five-page summary of what you are planning to do by May 15, 1984. Summaries should be sent to John B. Christiansen or Richard W. Meisegeier at the Department of Sociology and Social Work.

## Theatre production begins Feb. 24

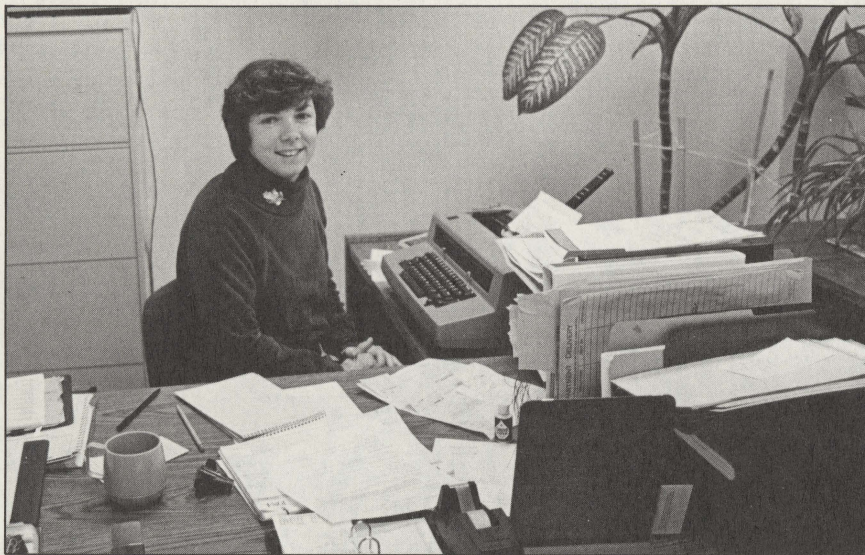

The Gallaudet College Arts Department will soon present Christopher Bond's version of the old melodrama, "Sweeney Todd." Set in the nineteenth century, the play chronicles Todd's activities as he attempts to avenge the adversity a local judge has caused for himself and his family. All performances will be signed as well as spoken.

Production dates are: Feb. 24 and 25 and March 2 and 3 at 8 p.m. in

Elstad Auditorium. Tickets are \$2.50 for children and students (including all sign language students) and \$4.50 for all others. Gallaudet students with identification will be admitted free. Reservations can be made by calling x5608 (TDD) or 5605 (voice).

Box office hours are as follows: Feb. 13-17, 2 to 5 p.m.; Feb. 20-23, 2 to 5 p.m.; Feb. 24-25, 2 to 8 p.m.; Feb. 27-29 and March 1, 2 to 5 p.m.; and March 2-3, 2 to 8 p.m.

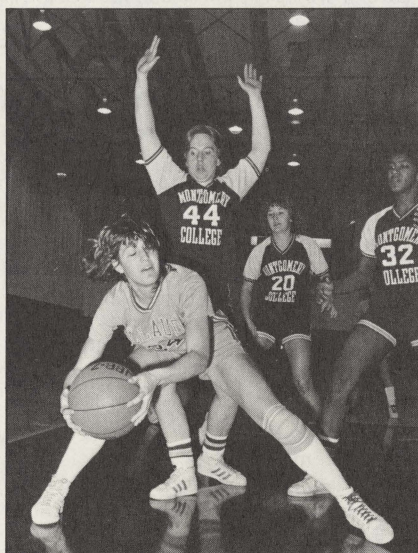

Jean Buchanan is an administrative secretary in the Department of Physical Education and Athletics.

## Bisonettes win fifth in a row

The women's basketball team continued its winning ways last week, picking up three more victories to boost its won-lost record to 14-3. The Bisonettes scored impressive wins over Western Maryland, 74 to 65; Montgomery, 69 to 63; and Randolph-Macon, 81 to 49. The Bisonettes will face a good test for the rest of the season. Eight of their last nine games of the season will be on the road. The lone home game will be on Feb. 16 at 7:30 p.m. against St. Mary's.

The men's team finally notched its first victory since the beginning of the semester. The Bison defeated Montreat-Anderson College 84 to 81 in the Bluefield Invitational Tournament. Gallaudet then lost to Bluefield in the championship game, 93 to 62. The Bison have a 5-12 record as of Feb. 4.

The women's swimming team has an overall record of three wins and five losses but has a 2-2 record since the spring semester began.

The Bisonettes in action on the way to a 69 to 63 victory over Montgomery College recently.

## Hearing impaired majors increase in SEHS programs

The number of hearing impaired majors in all programs in the School of Education and Human Services at Gallaudet grew from 76 in Academic Year 1980-81 to 116 in Academic Year 1982-83, an increase of 53 percent, according to figures released by SEHS.

During the same time period, the total number of majors increased from 212 to 262, a 24 percent increase over Academic Year 1980-81. During this period, total enrollments in SEHS courses increased from 3,728 in Academic Year 1980-81 to 3,905 in Academic Year 1982-83.

## ARA dishes out Olympic Day menu Friday at 'Ole Jim'

An "Olympic Day" menu will be served Feb. 17 from 11:30 a.m. to 1:30 p.m. at 'Ole Jim.' ARA, the campus dining service, has been selected as the official provider of food and transportation services for the upcoming Summer Olympics. It will feature on its luncheon menu on Friday an official Olympic menu: chilled gazpacho soup, chicken teriyaki, stir fried vegetables, wild and long grain rice with mushrooms and carrot cake. Cost of the lunch is \$3.95.

## Hours for legal clinic announced

The National Center for Law and the Deaf has announced hours of operation for its clinic during the next several months. The free legal clinic serving hearing impaired persons in the Washington, D.C. area will be open the following hours through April.

The clinic, located in Room 315 of College Hall, will be open Tuesdays, Thursdays and Fridays from 2:30 to 5 p.m. Appointments are necessary and can be made by calling x5454 or walking in Mondays through Fridays from 9 a.m. to 5 p.m.

Deaf and hearing impaired clients can get advice, assistance and representation in solving various legal problems through the clinic.

## Two-day fair scheduled

A Women's and Men's Fair, sponsored by Student Affairs, will be held Wednesday, Feb. 15 and Thursday, Feb. 16 from 10 a.m. to 5 p.m. in the multi-purpose room of Ely Center.

Booths, films, discussions and lectures will be held both days focusing on such men's and women's issues as sexual harassment, stress management, sexuality and health.

## Vacancies on advisory boards filled

Two new members have been appointed to fill vacancies on the Kendall Demonstration Elementary School National Advisory Board and one new member has joined the Model Secondary School for the Deaf National Advisory Committee.

Named to the KDES Advisory Board are Lawrence R. Newman, assistant superintendent at the California School for the Deaf at Riverside, and John A. Stoops, executive director of the Assembly of Elementary Schools, Middle State Association of Colleges and Schools.

Wesley Meierhenry, chairman of the Department of Adult and Continuing Education at the University of Nebraska, has been tapped for the MSSD Advisory Committee.

The two advisory panels convene annually to assist the schools in self-evaluation and planning. Both will meet concurrently March 7 through 9 this spring to give members an opportunity to share information.

Dr. Newman is a Gallaudet alumnus with extensive experience in the education of deaf children. He has served on advisory boards to the Center on

Deafness of California State University at Northridge and the National Technical Institute for the Deaf in Rochester. He is a past president of the International Association of Parents of the Deaf and has written about deafness for a variety of publications.

Dr. Stoops is credited with developing the new evaluation standards the Middle States Association now employs to accredit elementary schools. He has authored several books on education, including guides for teachers, administrators and vocational educators.

Dr. Meierhenry brings to MSSD particular expertise in the area of educational technology. He has authored numerous articles and contributed to several books on the subject. This will be his second term on the MSSD Advisory Committee. He served on the original 1969 committee and thus is well versed on the intent of the legislation which led to the establishment of MSSD. His historical perspective is expected to add an important dimension to the committee.

All three terms are current and will expire in 1986.
